

My prayer is that the American Campfire Revival will bring new life, courage and strength to the family of faith. Together, we will light fires of revival within the hearts of our families, friends, neighbors, and churches, and as the eyes of the whole world are upon us, they will say, "May God do for us in our nation as He has done again in America."

We have a vision to fan the flames of revival across America.

Start a fire, and gather together your community in backyards, living rooms, and churches across the country to pray and meet regularly. Pray, educate, strategize, and activate change in your community!
